

Custom Horse Painting by Sheryl Leisure

Horse-Power Graphics

PO Box 58, Kimmell, IN 46760 Phone: 559.760.9874 Email: hpginc@earthlink.net

Thank you for requesting my model painting information. I have over 25 years experience in painting model horses including hundreds of prototypes, OOAKS and artwork for Breyer, Peter Stone and Hartland Horses. I have taught air brush painting classes at both BreyerFest and Jamboree, and you can read more about me and see examples of my work on my web site: horse-powergraphics.com under the [Sheryl Leisure](#) pages. I can most conveniently fit in custom and repair work during the fall, spring and winter months and I generally do not take custom orders in late-June and July. It would be my pleasure to create a lovely model for you, or fix your broken treasure!

Custom Painting

Prices vary according to the size and the complexity of the paint job. Below are **base price** estimates for common colors in Traditional scale. To get a specific quote, please fill out the order form completely. Photos are necessary when specific markings are desired, the more the better, especially for Pinto and Appaloosa breeds. You may refer to or send copies of photos from my "Horse Color Art Gallery" if you like. Also send a photo or a URL of the model you wish to have painted. A custom quote for your model will be sent back to you when I have an opening. The prices quoted at that time will be firm for 30 days and are then subject to change. I take orders about 2-3 weeks in advance, and turn around time is generally 4-6 weeks.

Prices are for painting only. You must provide the model to be painted. Quote does not include trimming, seam clean and prepping. I can prep it if needed for an extra fee. I ALWAYS recommend prepping plastic models as it is detracting to put a nice paint job on a model with rough seams. I also will inspect models before and may add a fee for extra finishing if necessary. All of my painting quotes include primer, body coat, leg and face markings, hoof color, eye detail and clear coat. If you wish to consider giving me artistic license to come up with a unique and interesting model, if so, please indicate "Artist Choice" (AC) on the form and let me know what you *don't* like :) Please fill out the order form completely. The form is not a binding contract, but will enable me to give you an exact price for your specific job.

I also paint and repair dog, cat and all other animal statues. Please use this form for those also, filling in any extra information.

If after receiving the quote you decide to order the painting, send me **the model, a copy of the quote and your payment or PayPal address. Checks are not processed until the work is done. I do not require a deposit.**

Traditional Scale Painting

Any SOLID color: \$150.00
Roans including directional hair detailing: \$175.00
Blanket Appaloosa or minimal white Pinto: \$200.00
Leopard Appaloosa, other Pinto: \$225.00
Extreme Appaloosa or Any Dappled: \$300.00
Add subtle minimal Dapples: \$100.00

Traditional Scale Prepping Services

Carving out Ears/Raised Hooves: \$45.00
Seam sanding/pit filling/ complete prep: \$35.00

Model Enhancement

Along with custom painting, I can also add details or change the model to your liking. These services include removing and re-sculpting manes and tails, changing gender, or re-sculpting areas you would like changed. This adds time for completion of course, but the results are a unique model that you will enjoy. See list below for base prices.

Model Repair

I can repair all types of models including plastic, ceramic, plaster, epoxy, and resin and return your horses to Live Show Quality! From a minor paint touch up to broken limbs, I can do it all. I prefer to gather up groups of models to be repaired and do them in batches, so when your models arrive they will be batched with the next group. The average turn around is 4 weeks.

Ability to perform some of these services depends on the type of paint, any prior repair or customizing medium, and the clear coating that was originally applied to the model! I cannot take responsibility for reactions between finishes. I use Testor's Model Master satin, gloss and matte clear coat products.

Please refer to the list below for basic prices. Complicated repairs may require additional fees. If so, I'll contact you. If you don't need a quote, just send your model to me with the completed form and it will go in the next batch. With or without a quote, you must **include the completed form below plus the insurance amount for return shipping with each model you send, even if they're in the same box.**

I accept Money Orders, Checks and PayPal. Please add appropriate shipping & insurance fees. Your model will be painted in the order that it was received. Models left in my studio with unpaid invoices for more than 30 days after notification of completion will be offered for sale to the public to cover my costs. To avoid this, **you must send payment with model** or provide a PayPal address.

The utmost care is always taken in handling models, but I will not be responsible for damage due to manufacturing flaws or shipping breakage. I am not responsible for prep work done by others. Items will be carefully packed and returned USPS insured. Thank you!

Repair, Touch Up and Enhancement Painting

Paint touch up: \$5.00 per color
Example: Black ear tips, pink nose 2 x \$5. = \$10.
Repaint detailed hoof: \$5.00 each
